FROM OUR N. YORK CORRESPONDENT. New York, Monday, Sept. 13, 1852.

Have you turned your attention to the Chinese element which is so largely entering into the popniation of California? It seems to me quite wor-thy of study and elucidation, both in its immedi-ate influences, and its future potentialities. A late influences, and its future potentialities. A Inte San Francisco paper estimates the number of Chinese in California, up to last month, at 28,000 and goes into a calculation, founded on the monthly immigration then in progress, that by the close of this year, there will be more than 46,000 Celestials in that State. Intelligence of the troubles of the Chinese in the mines, and of the effortshappily ineffectual, to drive them away—had reached China, without at all abating the desire, or the purpose of such as were able to get away, to follow their countrymen across the Pacific On all hands, these Asiatics are represented as solver different belowing orderly neonle—account the pacific orderly neonless that the pacific on an mands, these Asiatics are represented as solver, diligent, laborious, orderly people—econ-omical in their habits, and in all respects a desi-rable population. The Collector of the Tax imposed upon foreigners working in the mines, reorts that be rarely has to call for payment a second time, upon any Chinese—and the Oriminal Courts are rarely troubled with their names. One triking peculiarity of this Eastern immigration is, that very few women accompany it. Of the 28,000 Chinese estimated to be in California in August last, only toonty-seven were women! As

an was not born to live alone—it would seem to ollow, that marriages must be numerous between the Chinese and those among whom they are settled. Considerable wealth is said to have been amassed by some of these people, and as they live much together, an enterprise was on foot, to import from their father land, a theatrival compawith all its peculiar sceneries and machineries, for the edification of the exiles, and of the wondering Anglo-Saxon race with whom these exiles are mingling fortunes and blood. It is noteworthy, that at the solemn commemoration in San Francisco, of the death of Henry Clay, appeared considerable delegation of Chinese-the first crasion, probably, within our country, of the public event. It will not be the last—for the overflowing population of China, when once the wall that has cooped them in at home is broken lown-will pour over the kindly Pacific seas, to a country so full of attraction for them. I have before hinted, I believe, in one of my letters, that possibly in this new element of our population, now is leading off the other way, may be found the substitute for what is now its vorst element-Slavery. The Chinese-Asiatic n origin, inured to labor under a burning sun, and in morasses unfriendly to our race-could well be employed in the rice swamps and cotton lantations of Carolina-and in the sugar fields of Louisiana. He would be less costly than a Slave to keep, more diligent, and more reliable, if only there was a way opened for disposing of the Colored race—if the African and his descendants could be returned to Africa-what a glorywhat a strength—what indissolubility to our Union—would this result prove! But there is the rule! That if is so terrible an obstacle. But whatever may be the influence upon Shavery-of quently in favor of this doctrine, as tending to rule this new population—it cannot but have some marked influence upon our institutions and general prosperity. The first comers will be, and have probably been-from those classes suffering nuder neglect, oppression, poverty, and ignorance at home. But as they prosper and are secure—others,

of superior qualifications and position will follow, and thus a familiarity of intercourse will be engendered between the intelligence, as well as the interests, of the old Continent and the new—and the buried races, usages, and intellect of Chinawill be revealed to us. The intercourse will become frequent, family alliances will be contracted and the whole mystery of China life, will, for the next generation of Americans, be dissolved. Then, again, what an opportunity will thus be opened for the advancement of that standard be-fore which, all others on earth, are at length to bow—the standard of the Cross. The idelatry and Paganism of the Chinese, cannot survive on our shores the contact with true religion-and in this way, it may be, that instead of seeking Missionaries from among ourselves, of different complexion, race, & habits, to labor among the Chinese -the latter, seeking us, and finding here that which they mostly need, may become volunteer witnesses to the brothers they have left behind, of the better faith of us "ourside barbarians." And thus the banner of the Cross, and the banner of Commerce, going hand in hand, as they so often do and have done—for Commerce is the great propagandist of civilization and religion-we may e-as those to come after us will see, the westen world repaying to Asia, the debt of civilization, learning and faith-purified from the errors

But I have not time nor space to pursue this large subject, which, in my judgment, is open-ed up by the advent to the shrine of California, of so numerous a Chinese immigration.

nia, of so numerous a Chinese immigration. It can only result in good.

The work abounds, of course, in the most unblushing falsehoods. We instance three, as "specimen

bricks."

The truth is, the Democrats never, within our recollection, held New Hampshire by a majority of two-thirds. They have carried the State in most years, but by a simple majority. New, to amend the Constitution, a two third vote is required, they could not, therefore, without help from the Whigs, repeal this law, and if they could not they are not to be blamed.

This is the assertion. Now for the fact. At the very last election in New Hampshire the ag-gregate vote on the Religious test was 21,658 Two-thirds of this would be 14,440. Yet on that ecasion the Democratic vote for Governor was 30,308 more than double the number necessary to repeal the test, without the help of a single Whig vote. The Democracy of New Hampshire but the power to expunge the Test, but refused to ex-

When the towns came to vote upon the amendments granting equal rights to the Catholics, they rejected it as we have seen. Hillsborough, the home of Gen. Pierce, gave a very large majority in favor of the umendment.

Here is the vote of "HILLSBOROUGE, Gen-PIERCE's "home," as copied from the record. For the amendment abolishing the Test 15; against do. 101! Majority for retaining the test, in "Hillsborough, the home of Gen. Preace,"
EIGHTY-SIX! And yet the desperate political gamblers who hang upon his skirts, impudently sure those whom they seek to make their dupes, that "Hillsborough gave a very large majority in

favor of the amendment?"

This identity of sentiment between the whig lenders is further shown by the following extracts the first one alleged to have been published in the Albany interfere, while edited by Gen. King and no satisfactory denial of which we have yet

They have done neither, but forts shall be spared on the part of the citizens of persist in circulating the lie, and add to the original fabrication a second and scatcely less villainous one, that "they have yet seen no satisfactory denial" of the charge that we uttered the entiment imputed to us. And these are the means by which " PIERCE and King democracy" hopes to triumph ! Most richly do they deserve the flogging which they will assuredly get in

> REPRESENTATION .- The "regular democracy" have queer ways of doing things. At a late convention in the Assembly district composed of Ou-tagamie, Waupacca, and Oconto counties, Mr. E. S. Goodrich, of Brown county, represented Oconto !

THE PEOPLE ARE HONEST AND INTEL- that "Appropriations by the Federal Government THE PEOPLE ARE HUNEST AND INTELLIGENT.

So the News says. It probably supposes that the improvement of Rivers and Harbors were of a pure Federal character, and repagnant to the may be, has been but recently convinced of the minerales and practice of the Democracy of this State; and Messrs, Hale and Tuck were justly obtruth. Upon this text it gives a half column of

And now we call upon the News to produce it.

And now we call upon the News is in favor included) to show them the role.

It (the Sentine!) has a constitutional lack of faith in the intelligence and honesty of the people. This is a fair sample of the assertions of the News. We give facts and figures, and ask the people to read them. The News refuses its readers the one, falsifies the other, and contents itself with loud professions.

There is a half column more of such sentences as we have copied above, being a sort of an introduction to an assault upon the policy of Protection to Home Industry, in which the News openly denounces that policy as-"an infamous falsehood-oppressing all classes for the benefit of the rich—a drain upon the resources of every mechan-ic, farmer, and Laborer in the West—building up monopolies—diminishing the pay of labor—an oppressive and hopeless tyronny—trash and hum-

After this, there will probably be no claim by any one, on behalf of the Aeres that it differs at all from Mr. Pierce, who "believes the principle of protection to be wrong." We have them both on protection to be wrong." We have them both on the record plainly and unmistakeably, so that the issue is fairly before the people of Wisconsin, viz:
—will you support Prence and so-called Fuer will you support Scort and House Law Boe? It is not a great while since the News was decidedly inclined towards a Tariff discriminating in favor of Home Industry; but it is bravely over in favor of Home Industry; but it is bravely over country.

It matters not that Washington believed in and advocated the doctrine of protection to American Industry-the Milwaukee Morning News insists that that doctrine is "an infamous falsehood." No matter if Jeffesson did, time and again, urge that policy upon Congress-the News will have it that it is oppression, and a drain upon the resources of the West. What if Manison did urge upon Congress and the country this good Whig doctrine? The News and its party are against it! What if Monuce, too, was an advo-cate of protection? Modern Democracy cries out ngainst it. What if Jackson spoke and wrote eloprices of American agricultural produce, and render us independent? The Acts and its party insist that it will diminish the pay of labor, and that it is a hopeless tyranny. What if any, and all, of these Presidents, in the earlier and purer days of the Republic, and all claimed by the Democracy as their political progenitors, were bold and carnest supporters of Protection? The News, with the whole modern democratic press, and Mr. Walker, and the London Times and Manchester Examiner, all insist that the idea of PROTECTION TO AMERICAN LABOR IS "TRASH AND HUBBUG!

There is no one principle more deeply meted in the bearts of the people of the West, than that of the absolute necessity for their prosperity, of a Home Market for their produce. They are thoroughly sick of their experience in depending upon famines in one country and wer weather in another for a just remuneration for their tail.— They want the United States government to adopt a policy which shall place the consumers by the side of the producers, and furnish an abun-dant and steady market for their produce. They have paid toll enough upon wheat and floor sent 1000 miles, to be subjected to the fluctuations of a foreign market. They believe, with Gen. Jaruson, and with Whigs everywhere, that if you take from agriculture 600,000 men, women, and children, and turn them to manufactures, you at once give a better market, and that for more breadstuffs, than all Europe now fornishes us.— The People of the West believe in this doctrine and are determined to sustain Home Labor, enin the way, and oppose them by denouncing dicial office. and superstitions which belong measurably to their ideas as "trash and humbug"—so much

> PR in despite of the utmost exertions of both of those worthies. See if they don't! A DIRECT ISSUE.

Here is a direct, tangible issue between the News and the Sentinel. We aver that FRANKLIN PIERCE is uncompromisingly hostile to all apropriations for River and Harbor Improvements such "votes and declarations," but coolly stamps coundly insists that it has "abundant evidence" hat Mr. Pierce is in favor of such appropriations Without pausing to express our surprise (if words could express it) at the unparallelied effrontery of to look to the record. Here is the proof of what

His advent to the balls of the National Legisluture, was made on the 1st Monday of December, 1833. A Harbor and River bill was reported in that session, appropriating \$722,387, and all to works of necessity. It passed the House June 23d, 1834, year 107, pays 54, Franklin Pierce vot-

ing against it. The next Harbor Bill passed the House Feb., 27th, 1835, yeas 108, nays 65. It appropriated only \$425, 167, and this also was for works of indeniable importance. Franklin Pierce voted against it. A motion was made to strike out the enacting clause of this bill, and Mr. Pierce voted sec. A motion followed to lay it on the table, and Mr Pierce voted yea. Just so invoterate was his

obstinacy.
June 28, 1836, another bill passed the House appropriating 8648,119, by year 125, nage 63, Mr. Pierce voting against it. Here also was a motion to strike out the enacting clause, and Mr. Pierce voted for it!

Feb. 28th, 1837, another and more comprehensive bill passed the House, appropriating \$1.374,-729, by yeas 107, nays 51, Mr. Pierce voting

The four bills just mentioned were exclusively for rivers and harbors-no road or canal appropriations among them. They were all passed during Gen'l Jackson's second term, and Old Hickory signed them all! "Anti-internal-improvements" vas not a "democratic" motto in those days, yet Mr. Pierce was so hostile to those appropriations that he voted steadily against them all.

Passing with the Democratic candidate to the we find him voting against the bill of July | vin, A. Nancolas, and Parley Eaton. , 1833, which passed the Senate by yeas 24, nays

. We invite the attention of the News and of the public to this record evidence that the votes of FRANKLIN PIERCEShow him to be "imcommonisingly hostile to all appropriations for River and "Harbor Improvements."

And now for the second "count"; to wit, Mr.

PIERCE's declarations. On the 23d of January, of This year, at a democratic gathering in Bradford, they will get it up shortly, for, really, these long New Hampshire, Franklin Pierce addressed the delays are having a serious effect upon the nervee meeting and in the course of his remarks declared of the timid ones of the party,

naziones to the charge of Federal sympathies for

having supported such measures. He pointedly affirmed that no person elected to Congress as a Democratifrom this State had ever supported measures for these purposes." He put the question to to the audience if this were not so, and paused for a reply, which was given in the affirmative by Here then is Mr. Pierce's "declaration" as

as his "vote" establishing beyond cavil, or controversy the fact that he regards all appropriations for River and Harbor Improvements as unconsti tutional and "repuguant to the principles and practice of Democracy," and that, so thinking, he has invariably opposed every such measure. So

"abundant evidence that Mr. Pierce is in favor of just and constitutional appropriations for Harbors and Rivers!" We invite it to give a single vote, or declaration of Mr. Prence's, in support of such measures. We have produced vote after yote of his against all River and Harbor Bills. Let the News, if it can, point to a solitary one in their favor. Or failing to do this let the public decide who has been guilty, in this matter, of "bare-faced open, unequivocal and unscrupulous fabrication !" Protection-Fierce and the Whig Platform,

We published some days since a resolution reorted by Mr. Praces to the Loco Foco State Con-ention of New Hampshire, in which he states his belief" that " THE PRINCIPLE OF PROTECTION IS The Madison Democrat offers us a "reward of

\$50 the moment we can show any practical diference between the above" and the resolution in the Whig plotform. That resolution reads as ful-

Mr. Pierce, you see, believes "the principle of protection to be wrong? while the Whig plat-form believes in discriminating specific duties. with especial reference to the encouragement of of American Industry. That is all the difference I N. B. About that \$50; -we shou't claim the sayment of it, as we are only doing a labor of love in enlightening ignorance.

tion, the following assertions, ascribed to J. Re-Giddings: of am satisfied that the Democratic party are, after all, the only real friends of River and Harton Improvements. The Whigs always had the most to say upon the subject, and invariably made the loadest professions, while they lift the load.

We have seen no proof that Mr. Giddings ever used such language. If he did, it only shows how far in the course of falsehood the bitter feelings of a man may lead him. Since Giddings' identification with the Free Soil party, he has been convicted of such falschoods, more than

elected as a Whig, over a regular Democratic ticket. Now he heads a "no-party" judicial ticket. So, when it suits his purpose, he is a the first that the second of the second of a Whig, over a regular Democratic skel. Now he heads a "no-party" judicial sket. Hon. Thomas Coawin,

Secretary of the Treasury, Washington:

Sin:—I beg to advise you that three or four Germans have been apprehended at a house in Eull, where they have been since last autumn, having in their possession many genuine Coins of Prussia, the United States, and Denmark, and a coining apparatus. Since their arriest, counterfeit coins, in an unfinished state, have been found. I understood the Prussian and Danish coins are in a more forward state than those of the United States. I believe only one coin has been traced into the hands of a third purty—a Prussian one. The prisoners were remanded the 10th inst, then to the 17th, and again for a fortight, that further evidence may be procured. It is thought the ceiners pass the spurious coin off to entignant. The police say their mode of coining is very selectificate except, by cutting.

I have written to Mr. William Frankish, my Use Consul at Hull, who reported the foregoing to mo, to watch the proceedings against the men, and have reported the case to Mr. Lawrence and to the Deportment of State, and shall be glad to receive any instructions from you on the satiect, being.

esting portion of Linus Child's resent speech before the Lowell Scott Club:

a He detailed the substance of a conversation with Ex-Gor. Marcy. Mr. Polk's Secretary of War, in which the heatility of Mr. Polk and his entire Chilmet toward Gen. Scott was freely actioned by the conversation of Mr. Polk resolved upon conquering Mexico, and determined to send an army into the heart of the remnined to send an army into the heart of the remnined to send an army into the heart of the remnined to send an army into the heart of the remnined to send an army into the heart of the remnined to send an army into the heart of the remnined to send an army in the heart of the remnined to send an army. The daty of recommending a suitable person to assume that command properly devoked upon the Secretary of War. Gor. Marcy said he spend three week-in casting his eyes over the contray or a suitable person for that responsible command. Finally he informed the President field, for the purpose of taking that matter into consideration; and also informed the President of his purpose to recommend Gon. Scott for the post in question.

At the meeting of the Cobiner, President Polk informed the members that they had not to take into consideration the very strange resommendation of the Secretary of War. Gov. Mancy had prepared himself for the emergency, and finally convinced the other members of the Cabinet that no other man in the country was fit to entrust with the command of the proposed expedition.—And, above all, should the Administration current its management to an inferior man, and should it fail, the Democrate party would surely be swept from power. It was not stated whether the prospect of party defeat, or the certainty that the American army night be destroyed while under the command of a partison favorite, had the areas to do in inducing the Cabinet to consect to Scott's appointment.

"Mr. Childs also gave an account of a conversation with Gen. Pierce aid that on his way home he called at Washington, and told President Polk that th fore the Lowell Scott Club:

Our political sky was never brighter hear than at present. The name and hame of Windied Scott carry with them a tower of strength. His deeds are inseribed upon the heart of nearly every citizen; and a glorious Whig victory in the Keystone State will certainly be the result of the efforts now being made to promote the success of Scott, and Graham. I could name 28 Democrats in this very town who are zealous supporters of the hero of so many battles. The Life of Scott is doing its really believed that the Loco-Forto majority in this country will be reversed in favor of Winfeld Scott. This part of the State is alive with entiusiasto for the gallant oil conquevor; and you can pare Pennsylvania down for Scott and Graham; for as certainly as election day arrives will the vote of this State be carried for the Whig ticket.

KENOSHA WATER CURE,

DR. H. T. SEELEY, late of Chicago, has recently fitted up the large and commodious buildings, known as the National Rotel, at Kenocha, Wisconsin, and is now prepared to receive padents, who wish to be treated on strictly Hydrogathic principles.

DR. Serley has had severally enrice experience in this mode of practice, and the universal success attending it, thus far, enables him to say with confidence to those who are seeking the recovery of their health by this efficient method of curse, that he will guarantee as thorough and judicious treatment as can be obtained at any Water-cure in the United States.

The house is sufficiently retired to make it pleasant, and commands a fine view of the Lake. The water need is soft and pure. For further information, address.
